Dear Honorable Judge Michael Reed,

We are owners of a cottage at 8492 E. Wesley Lane in Epworth Forest and are members of the Epworth Forest Non Lakefront Owners Association and by decree the new entity. We are concerned about the make-up of the pier committee in the new entity that you established as part of your April 15, 2014 judgment. One of the onshore representatives, J. Richard Presser, currently on the pier committee is one of the people that filed an appeal of your judgment. We believe that persons involved in the appeal, who think that the new entity should not even exist, should not be in leadership positions in the new entity. This conflict of interest tends to negate cooperation between members of the pier committee which is essential in solving the many issues involved in the smooth management of the waterfront. Shouldn't he be declared not eligible for a leadership role in the new entity?

Thank you for your thoughtful consideration of this matter. We look forward to your response.

Jerry M. Titsworth
